Motion carried.

NOW, THEREFORE BE IT RESOLVED, by the Lorain County Board of Commissioners of Lorain County, Ohio that;

I. The Board makes the following findings upon the resolutions of the Village of Wellington, report of the Lorain County Engineer and the testimony presented that:

The necessary requirements are in the record for notification and have been complied with. The petitioners are owners of the territory of property proposed to be annexed, there has been no dispute of the validity of the petitioner's signatures and those signatures constitute a majority of the territory proposed to be annexed on the date of petition. The Village of Wellington by Ordinance No. 2004-44 had provided a statement indicating services that are willing to provide and will provide these services upon annexation.

- A. The petition meets all the requirements set forth in, and was filed in the manner provided in Section 709.02 of the Revised Code in that:
 1. The real estate is "contiguous" to the municipal corporation to which annexation is proposed.
 2. The petition contains:

- a. The name of the owners, their signatures, and date each signature was obtained.
 - b. A legal description of the perimeter of the proposed territory to be annexed.
 - c. A map or plat of the proposed territory to be annexed.
 - d. The name and address of the agent for the petitioner.
 - e. Lists of all the parcels and the name and mailing address of the owners of each parcel:
 1. Within the proposed territory to be annexed.
 2. That lie adjacent or directly across the street from the proposed territory to be annexed.
3. That a majority of the territory proposed for annexation lies within the county.
- B. The persons who signed the petition are owners of real estate located in the territory proposed to be annexed in the petition, and, as of the time the petition was filed with The Board of County Commissioners the number of valid signatures on the petition constitute a majority of the owners of real estate in that territory. In order to be valid signatures:
1. Signatures are of "owners" of property.
 2. Were not obtained more than 180 days before the date the petition was filed.
 3. Constitute a majority of the owners of the territory proposed for annexation.
- C. The Village of Wellington to which the territory is proposed to be annexed has complied with divisions (D) of section 709.03 of the Revised Code, the requirement to adopt by ordinance or resolution a statement indicating what services will be provided upon annexation and approximate date the services will be provided.
- D. No street or highway will be divided or segmented by the boundary line between Wellington Township and the Village of Wellington to create a road maintenance problem, or, if a street or highway be so divided or segmented, the Village of Wellington has agreed, as a condition of the annexation, that it will assume the maintenance of that street or highway. For the purposes of division, "street" or "highway" has the same meaning as in section 4511.01 of the Revised Code.

II. The Board further finds the territory to be annexed is not unreasonably large based upon stipulated testimony of Attorney James N. Taylor that:

Said finding was supported by the evidence that:

The territory is not unreasonable large. The municipality of Wellington will be able to provide services to the territory, they are not undertaking something that is unreasonable large, the shape and geographic features of the territory proposed to be annexed are regular and not unusual and are not creating any islands or peninsulas. The removal of the territory from the Township will not create a situation that the tax base of the Township to be so eroded or depleted so as to not permit the Township to continue on and provide goods and services to the township residents.

III. The Board further finds that on balance, the general good of the territory proposed to be annexed will be served, benefits to the territory proposed to be annexed and the surrounding area will outweigh the detriments to the territory proposed to be amended and the surrounding area, if the annexation is granted. As used...here..."surrounding area" means the territory within the unincorporated area of any township located one-half mile or less from any of the territory proposed to be annexed.

Said finding was supported by the evidence that:

On balance, the general good of the territory proposed to be annexed, is served because of the available of certain city services to those areas, including sewers, fire, police and there is also benefits to the area to be annexed and the surrounding areas and those benefits out weight the detemrnts due to the availability of utilities. The annexation will provide benefit to the surrounding area through the enhancement of value of properties in the surrounding area. Final condition which we believe that has been met, is no street or highway will be divided between the Township and the municipality as to creating maintenance issues; and

The Legal Description reads as follows:

The undersigned, being a majority of the property owners in the property proposed to be annexed, such property being contiguous to the Village of Wellington, Ohio, hereby petition the Board of Commissioners of Lorain County, Ohio, for annexation of the property located at 20464 S.R. 58, Wellington, Ohio 44090 and further described below, to the Village of Wellington, Ohio:

Motion carried.

NOW, THEREFORE BE IT RESOLVED, by the Lorain County Board of Commissioners of Lorain County, Ohio that;

I. The Board makes the following findings upon the resolutions of the Village of Wellington, report of the Lorain County Engineer and the testimony presented that:

The necessary requirements are in the record for notification and have been complied with. The petitioners are owners of the territory of property proposed to be annexed, there has been no dispute of the validity of the petitioner's signatures and those signatures constitute a majority of the territory proposed to be annexed on the date of petition. The Village of Wellington by Ordinance No. 2004-44 had provided a statement indicating services that are willing to provide and will provide these services upon annexation.

- A. The petition meets all the requirements set forth in, and was filed in the manner provided in Section 709.02 of the Revised Code in that:
 1. The real estate is "contiguous" to the municipal corporation to which annexation is proposed.
 2. The petition contains:

- a. The name of the owners, their signatures, and date each signature was obtained.
 - b. A legal description of the perimeter of the proposed territory to be annexed.
 - c. A map or plat of the proposed territory to be annexed.
 - d. The name and address of the agent for the petitioner.
 - e. Lists of all the parcels and the name and mailing address of the owners of each parcel:
 1. Within the proposed territory to be annexed.
 2. That lie adjacent or directly across the street from the proposed territory to be annexed.
3. That a majority of the territory proposed for annexation lies within the county.
- B. The persons who signed the petition are owners of real estate located in the territory proposed to be annexed in the petition, and, as of the time the petition was filed with The Board of County Commissioners the number of valid signatures on the petition constitute a majority of the owners of real estate in that territory. In order to be valid signatures:
1. Signatures are of "owners" of property.
 2. Were not obtained more than 180 days before the date the petition was filed.
 3. Constitute a majority of the owners of the territory proposed for annexation.
- C. The Village of Wellington to which the territory is proposed to be annexed has complied with divisions (D) of section 709.03 of the Revised Code, the requirement to adopt by ordinance or resolution a statement indicating what services will be provided upon annexation and approximate date the services will be provided.
- D. No street or highway will be divided or segmented by the boundary line between Wellington Township and the Village of Wellington to create a road maintenance problem, or, if a street or highway be so divided or segmented, the Village of Wellington has agreed, as a condition of the annexation, that it will assume the maintenance of that street or highway. For the purposes of division, "street" or "highway" has the same meaning as in section 4511.01 of the Revised Code.

II. The Board further finds the territory to be annexed is not unreasonably large based upon stipulated testimony of Attorney James N. Taylor that:

Said finding was supported by the evidence that:

The territory is not unreasonable large. The municipality of Wellington will be able to provide services to the territory, they are not undertaking something that is unreasonable large, the shape and geographic features of the territory proposed to be annexed are regular and not unusual and are not creating any islands or peninsulas. The removal of the territory from the Township will not create a situation that the tax base of the Township to be so eroded or depleted so as to not permit the Township to continue on and provide goods and services to the township residents.

III. The Board further finds that on balance, the general good of the territory proposed to be annexed will be served, benefits to the territory proposed to be annexed and the surrounding area will outweigh the detriments to the territory proposed to be amended and the surrounding area, if the annexation is granted. As used...here..."surrounding area" means the territory within the unincorporated area of any township located one-half mile or less from any of the territory proposed to be annexed.

Said finding was supported by the evidence that:

On balance, the general good of the territory proposed to be annexed, is served because of the available of certain city services to those areas, including sewers, fire, police and there is also benefits to the area to be annexed and the surrounding areas and those benefits out weight the detemrments due to the availability of utilities. The annexation will provide benefit to the surrounding area through the enhancement of value of properties in the surrounding area.
